Rechargeable hearing aids

Alpha

bernafon®
Your hearing · Our passion

The first to feature Bernafon's Hybrid Technology™, Alpha sets out to emulate animals with exceptional hearing.

Steadfast and resolute, this hearing aid provides natural and uncompromised sound – even in the most rigorous environments.

Bernafoon Alpha: At the forefront of performance

Rechargeable

The miniRITE T R rechargeable style is a users' favorite. It charges in only 3 hours and lasts all day. Go about your day with confidence and peace of mind.

Comfortable

Designed to be attractive and discreet to wear, Bernafon Alpha sits comfortably behind the ear for a secure fit all day long.

Versatile

Bernafon Alpha streams sound directly from your smartphone and other audio devices. Thanks to an intuitive app, you can monitor and control your hearing aids with just a few taps – convenient and discreet.

Hybrid Technology™:

For best sound
without compromise

Hybrid Noise Management™

carefully reduces noise when necessary to improve speech understanding, meanwhile preserving natural environmental sounds

Hybrid Sound Processing™

works with two processing strategies simultaneously to deliver natural sound in real time

An industry first, Hybrid Technology™ combines two processing approaches into one hybrid system. The result is augmented speech understanding and listening comfort.

Hybrid Balancing™

personalizes sound amplification based on your individual preferences

Hybrid Feedback Cancellor™

eliminates disturbing feedback signals within milliseconds before they become audible

Bernafon Alpha key features

IP68 rated

Dust and water resistant
for prolonged durability

LED light

For charging status indication

Double push buttons

Independent volume
and program change

Bernafon Alpha rechargeable hearing aids provide power for a full day of use including sound streaming from other devices and phone calls.

2.4 GHz Bluetooth® Low Energy

For wireless connection to external audio devices

Telecoil

EasyControl-A app

The must-have app for any user. This app is the place to monitor volume, programs, and battery level. Or adjust streamed music to your preference with the streaming equalizer.

There's even a "Find my hearing aid" function, just in case.

SoundClip-A

The all round connector for hands-free phone conversations. Used as a remote microphone, it improves interpersonal communication over distance and in noise-filled environments.

TV-A

This device streams the audio of your favorite shows directly into the hearing aids.

RC-A

This remote control makes for a smooth and discreet hearing aid operation.

Established in Switzerland in 1946, we have worked ever since in the spirit and tradition of our founders to develop solutions that help people with hearing difficulties. Our Swiss heritage, leading technology, and high performance products help us fulfill our goal:

Together we empower people to hear and communicate better.
