ENCANTA 100 CONNECT

# Connected to the conversation

Ideal for talking with:  
**One person**  
Listening environment:  
**Low noise**

Focusing on that special family member or sharing a laugh in front of the TV or on the phone. Conversations matter. Encanta 100 will enrich your connections at home with family and friends. It makes soft and loud voices clear for great one-to-one conversations. And lets you hear all around you with clear and natural sound.

## Bernafon Sound Quality – clear and natural

Brilliant sound is all about the details. That's why the sound you get from Encanta hearing aids follows the natural pattern and quality of real sound. For clear speech and listening comfort without cutting you off from your surroundings.

## Comfort in knowing where sounds are coming from

Whether it's the telephone ringing, a knock at the door, or someone talking in another room, Encanta 100 picks up sounds from all directions, so you don't miss out.

What you  
get with  
Encanta 100

- A clear and natural sound experience
- Hearing soft sounds without loud sounds becoming uncomfortable
- Hearing sounds coming from all directions

ENCANTA 200 GO

# Out and on the go

Ideal for talking with:  
**One person**  
Listening environment:  
**Noisy**

If you lead an active lifestyle, your hearing is key to navigating your day, especially when there's noise involved. Encanta 200 is great for enjoying life on the go. For one-to-one conversations, it gives you comfortable, clear speech understanding that cuts through noisy listening situations indoors and outdoors.

## Focused conversations in noisy environments

At the park or inside a café, Encanta 200 helps you focus on what matters to you – like the person you're talking to – even when different noises and sounds compete for your attention. It uses Smart Noise Management technology to adjust to the environment you're in. So you get better sound quality and even clearer speech in noisy places.

What you  
get with  
Encanta 200

All of the benefits of  
Encanta 100, PLUS:

- Better speech understanding when there is noise
- Better listening comfort when there is noise

ENCANTA 300 ENGAGE

# Engaging with the group

Ideal for talking with:  
**A group of people**  
Listening environment:  
**Noisy**

Feeling like part of the group means easily following a conversation with more than one person. Encanta 300 is made to help you fully participate. It lets you naturally transition your focus from one person to the rest of the group in noisy environments, like in a restaurant, out shopping, or at a meeting.

## Keeping up with the conversation

In social or work conversations, it's natural to want to focus on one person and then shift your focus to others. Encanta 300 comes with Smart Noise Management with the new Smart Sensor. It uses motion detection to know when you want to focus on one person or when you want to focus on many, and automatically adjusts accordingly.

What you  
get with  
Encanta 300

### All of the benefits of Encanta 200, PLUS:

- Better speech understanding in group conversations
- Hearing sounds all around you, even in noisy places

# Your sound experience

Not every hearing aid processes sound the same way. Bernafon hearing aids are known for their clear and natural sound – to help you hear the little details as well as the big picture. That's because they process sound in a unique way that follows the natural pattern and quality of real sound. So no matter which Encanta is right for you, you know you'll get an exceptional sound experience.

## A richer music experience

Music enriches life in so many ways. All your music – live, recorded, or streamed – will come alive with the unique Music Experience program in every Encanta hearing aid. You'll savour each note with high-quality, precise, and balanced sound – whether you're playing or listening.

*"I tried different hearing aids  
and they all translated sounds differently.  
In the end, it was [Bernafon] that gave me  
a more natural feeling of the sounds  
I was used to hearing."*

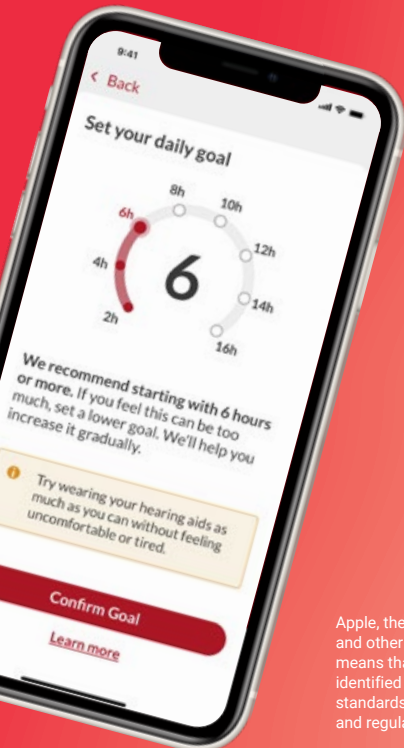

– Mario, Bernafon hearing aid user
