

Discover a solution that fits you perfectly

Five steps to your most
personalized hearing solution

By taking your unique listening needs and experiences into account, we'll work together to find a seamless fit for your lifestyle.

Because the very best hearing solution is a [personalized one](#).

Five steps to your perfect fit

- 1 Discuss your experience
- 2 Choose technology level
- 3 Select your perfect style
- 4 Color it your own
- 5 Get connected

Step 1

Discuss your experience

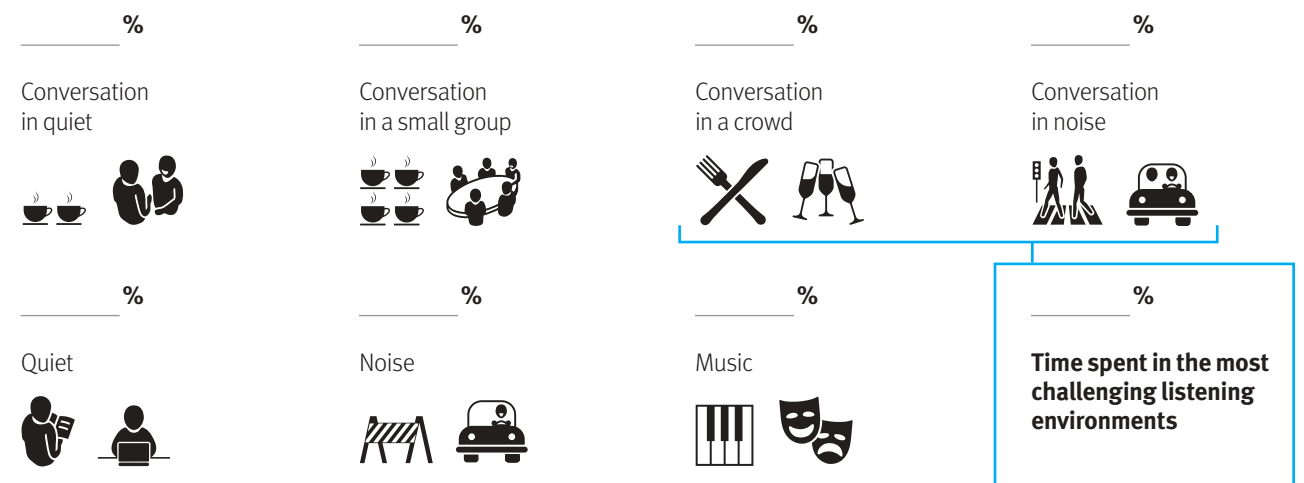

Before your FLEX:TRIAL™, you identified specific environments where you experience your biggest listening challenges.

During your FLEX:TRIAL, your hearing aids automatically kept track of the listening situations where you spent time. And you may have used an app to share how you were feeling about your hearing aid performance right in the moment.

By taking this evidence into account, we can work together to find a seamless fit for your lifestyle.

Let's have a look at your listening lifestyle to see where you spent your time:

Step 2

Choose the best technology level

Now that we understand your experiences from your FLEX:TRIAL, we can select a technology level that has the right performance for your listening lifestyle.

What's the best match for your listening needs?							
	Conversation in quiet	Conversation in a small group	Conversation in a crowd	Conversation in noise	Quiet	Noise	Music
Situation examples							
T Pro	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★
T 800	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★	★★★★★
T 700	★★★★★	★★★★★	★★★★	★★★★	★★★★★	★★★★★	★★★★
T 600	★★★★★	★★★★	★	★★	★★★★★	★★★	★★★
T 500	★★★★★	★★	★	★	★★★★★	★★	★★★

Improve your most challenging listening environments with advanced technology

T Pro – SpeechPro ★★★★★

Get the best speech understanding and the least background noise in challenging environments. A sophisticated dual-part system improves conversations by dynamically adjusting to emphasize the main speaker from any direction and locate exactly where speech is coming from.

Enhanced localization

Dynamic Spatial Awareness

Front

Side

Back

T 800 – SpeechZone™ 2 ★★★★★

Enjoy easier speech understanding in noise with sophisticated technology that zones in on the main speaker when they are in front and opens up to the speaker beside and behind you.

Front

Side

Back

T 700 – SpeechZone™ ★★★★★

Hear conversations in noisy environments with advanced technology that zones in on the speaker in front.

Hearing aids shown at actual size

*Moxi All R, Moxi Fit R and Stride M R add rechargeable technology to Moxi All, Moxi Fit and Stride M hearing aids

Step 4

Color it your own

**Circle the
color for you**

*Colors available for rechargeable solutions **Black is an extra option on the IIC style only Products shown at actual size

Step 5

Connect to accessories

- 1. Rechargeable kit**
Easily convert any Moxi All, Moxi Fit or Stride M into a rechargeable solution that includes this charging base.

- 4. Remote control 2**
Customize your listening on the go by discreetly adjusting volume and switching programs.

- 5. uStream**
Get discreet stereo connectivity to wireless devices, like mobile phones, TVs, tablets and uMics with this streamer. Plus enjoy remote control functions.

- 6. uTV™ 3**
Enjoy TV again with stereo sound from the TV delivered to both hearing aids through a streamer.

- 7. uDirect™ 3**
Connect to conversations through mobile phones, uMics and FM receivers with this streamer. Enjoy stereo-sound entertainment from tablets, TVs and mobile phones. Plus take advantage of remote control functions.

- 8. uMic™**
Hear a companion more easily in challenging environments by having them wear a uMic. Their voice is then transmitted to the hearing aids through a streamer.

- 9. uControl app**
Use your Apple or Android smartphone to easily control hearing aid settings through a streamer. The app also has a My Ratings feature for you to rate your hearing aid performance.

- 10. IIC remote**
Easily adjust volume or switch between programs of 10A omni custom hearing aids using a tiny magnetic remote.

- 2. TV Connector**
Makes it simple to hear your favorite programs by wirelessly connecting your Moxi All hearing aids to your TV. Just plug it in, press one button and you're all set to enjoy.

- 3. Remote Plus app***
Use your Apple or Android smartphone as a remote control for your Moxi All hearing aids. The app also has a My Ratings feature for you to rate your hearing aid performance.

*The Remote Plus app for Moxi All works on Apple smartphones with iOS 10.2 or newer and Android smartphones with version 6 or newer
