NEW HORIZONS IN HEARING

The Widex UNIQUE hearing aid pushes back the barriers of what you can hear with a hearing aid. Louder and softer sounds. More conversation. In fact, all the important sound details around you.

But not every day has to be an adventure.

Whether you're riding up a mountain or riding down the road, UNIQUE lets you comfortably hear more sounds wherever you are, whatever you are doing.

WIDEX®
HIGH DEFINITION HEARING

CAPTURES MORE SOUND

Push your limits, no matter what the situation.

UNIQUE captures all the sounds you need, from the highs to the lows, from the loud to the very quiet. No other hearing aid can provide you with such a wide range of comfortable, audible sounds.

PURE, CLEAN SOUND

Make the most of every experience.

Only UNIQUE can reduce unwanted soft sounds (such as the humming of a refrigerator) and maintain useful soft sounds (such as quiet speech). And when you're outdoors, UNIQUE significantly reduces wind noise, no matter what the conditions.

ANYWHERE, ANYTIME

Enjoy supreme sound in any environment.

UNIQUE cleverly and quickly adapts automatically to any listening situation you find yourself in, no matter how complex.

COLOURS AND MODELS

UNIQUE is available in five Behind-the-ear (BTE) models and three In-the-ear models (ITE). Your hearing care professional can help you choose the ideal model for your specific hearing loss and lifestyle.

All UNIQUE models are available in a wide range of stylish colours to suit all tastes. You can choose between 15 different colours for BTE models and three standard colours for ITE models.

KEEP CONNECTED

The UNIQUE experience doesn't stop with the hearing aid.

With COM-DEX you can stream phone calls and music from any mobile phone to your hearing aids – hands-free and without any fuss. Your hearing aid can also be controlled remotely from your smartphone using the COM-DEX app. And with the new COM-DEX Remote Mic, an add-on to COM-DEX, you can hear conversations clearly in difficult one-to-one situations.

FIND OUT MORE
